Summary	I am an experienced AI engineer with over 5 years of experience in full-stack development and AI automation. My expertise encompasses machine learning, large language models (LLMs), and natural language processing (NLP), enabling me to design and implement sophisticated AI-powered chatbots and automation solutions. I excel in integrating AI capabilities into web applications through innovative API integrations and the development of robust AI wrappers, delivering seamless, automated experiences that drive business efficiency and enhance user engagement. My comprehensive skill set in both front-end and back-end development positions me to craft tailored, industry-specific solutions that address complex technological challenges.				
Experience	Wolf careers Full Stack Developer	October 2022 - Present Texas, USA			
	As a FullStack developer and an AI enthusiast I have built several web applications and RAG models, chatbots, AI automations from scratch to production.				
	Aganitha Cognitive Solutions Full Stack Developer	August 2020 - September 2022 Hyderabad, India			
Projects	AItomates https://aitomates.com I am the founder of <u>AItomates</u> , where I specialize in providing businesses with AI-powered chatbots, intelligent automation solutions, lead capture, and CRM integration.
